

Daphne Utilities is in the process of submitting applications for both a drinking water state revolving fund (DWSRF) loan and a clean water state revolving fund (CWSRF) loan through the Alabama Department of Environmental Management (ADEM). Both the DWSRF and CWSRF are low interest loan programs for public infrastructure improvements in Alabama. The DWSRF supports infrastructure utilized in treatment of drinking water and providing drinking water to customers while the CWSRF supports infrastructure for the collection and treatment of sewage from customers. As part of the application process, Daphne Utilities prepares an Environmental Information Document (EID) and conducts a public meeting. Due to recent concerns with COVID-19, the public meeting will be held via a conference call on Monday, June 1<sup>st</sup> at noon. For information on how to participate in the public meeting conference call, please call Daphne Utilities main office at 251-626-2628, Monday-Friday between normal business hours of 7:30 am – 4:30 pm to obtain the call-in number and access code.

The following are the proposed projects to be funded by Daphne Utilities through the CWSRF and DWSRF. Additional project information is located in the associated EIDs.

**PROPOSED PROJECTS FOR THE DWSRF**

Project A: Water Storage Capacity Increase at Douglas Road Facility

Project B: Installation of Well Number 14

Project C: Replacement of Well No. 2

Project D: Water Storage Improvements

Project E: US 98 Water Main Improvements - Phase 1

Project F: Lake Forest Water Main Upgrades

**PROPOSED PROJECTS FOR THE CWSRF**

Project A: Replacement of Manual Bar Screen at the Existing Wastewater Treatment Facility

Project B: UV Disinfection Upgrades at the Existing Wastewater Treatment Facility

Project C: New Filtration Equipment at the Existing Wastewater Treatment Facility

Project D: Vortex Grit System at the Existing Wastewater Treatment Facility

Project E: Collection System Rehabilitation/Upgrades
